MANGALORE.

Sir,

Sub:- COMMUNICATIONS - Roads - Puttur taluk - Road from Ujre to Dharmastala - Private road - Improvements under the P.W.D. Scheme and maintenance by the District Board - Proposals furnished - sanction requested.

There is a private road for a length of 5 miles 4 furlongs from Ujre on the Mangalore Dharmady trunk road at mile 40/3 leading to Dharmastala a place of pilgrimage. The road is maintained by the temple authorities at Dharmastala. This is the only convenient and the shortest route leading to the temple, which is one of the biggest pilgrimage centres in this district. The annual illumination festival, which is held there during the month of November, attracts more than 20,000 people and elaborate sanitary arrangements are made there by the District Board.

2. The road which is now maintained by the temple authorities, is not fit for regular vehicular traffic. Sri D. Sanjayya Hegde, B.A.B.L., who is in charge of the temple has expressed his desire to hand over the control of the road to the District Board for being maintained as a public road. The District Board in its resolution No.72 dated 12-11-51 (copy enclosed) has agreed to take over the road for maintenance and has resolved to address Government to include the work under the P.W.D. Scheme for 1952-53.

3. At present, it is an earthen road in very fair condition. Catch drains are required throughout between mile 1/1 to 3/4. The culvert in mile 4/5 has to be replaced with a pucca structure and will cost about Rs.15,000/- . The road has to be metalled and provided with catch drains and small culverts and this will cost about Rs.35,000/-. The total estimated cost for improving the road will be about Rs.50,000/-

4. I have requested the Collector of South Kanara in my Lr.No.A2-25006-51 dated 20-11-1951, to sanction the vestiture of the lands in the District Board.

5. I request that the Government may be pleased to approve the proposals referred to above.

73. Read letter Ref.No.3-26758-51 dated 23-10-51 of the Collector of South Kanara suggesting that as expressed by Sri D.Manjayya Hegde, M.L.C. the private road from Ujre to Annarastala for a length of about 5½ miles may be taken over by the District Board for proper maintenance and that the Revenue Department will make arrangements for the transfer and vestiture of the lands in the District Board for road purposes, in case the Board agrees to take over the road as a District Board road.

Also recommendations of the Divisional Engineer (N) Mangalore on the subject.

Office note suggesting that the improvements required for the road may be taken up under the P.W.R.D.Scheme for 1952-53 after obtaining the sanction of the Government.

RESOLUTION "The Board agrees to take over the road for the purpose of maintenance. The Govt. will be addressed to include the work under the P.W.R.D Scheme during 1952-53. The Revenue Dept. will be addressed to make necessary arrangement for the transfer and vestiture of lands to the District Board."

Sir,

COMMUNICATIONS - Belthangady sub taluk - Ujre - Kalmanje and Dharmastala villages - Ujre Dharmastala road - Inclusion in the P.W.R.D. Scheme - proposals.

REF: R.Dis. 25006-51 dated 30.3.52 from the President District Board South Kanara.

.....

I enclose a copy of the South Kanara District Board President's letter R.Dis.25006-51 dated 30.3.52. The District Board ~~with~~- in its resolution No.73, dated 12.11.51 has agreed to take over the Ujre-Dharmastala Road for the purpose of maintenance.

2. The Ujre Dharmastala Road which is about 5½ miles in length runs from Ujre on the Mangalore Charmady Trunk road at mile 40/3 and leads to Dharmastala a place of pilgrimage situated in the interior part of Belthangady sub taluk . For the most of its length this road runs through Government lands and a few patta lands. This road is at present not in a fit condition for vehicular traffic particularly during the monsoon months as it has not been metalled. This is the only road connecting the interior villages of Belthangady sub taluk lying on the lap of the Western Ghats it is quite necessary that it is repaired and made fit for vehicular traffic and handed over to the District Board for maintenance. I therefore recommend the inclusion of the work of forming and maintaining the road under the Post war Road development scheme.

I am taking separate action to sub divide the plots through which the road passes, with a mimimum width of 66' wherever possible. In the case of patta lands also through which the road passes steps have been taken by me to accept the relinquishment of the plots by the registered owner concerned.

The vestiture of the road can be done only after all the plots are sub divided. In the meantime a separate notification declaring the road on a public road is also being issed by me.

Yours faithfully,

For Collector
